

COMMUNITY CASE MANAGEMENT

Provides one-on-one assistance to clients who are in need of varying resources.

A case manager will take time to create attainable goals with the client's input in order to be sure their needs are met. Through referrals, outreach & encouragement we will strive to give a hand up!

RESOURCE ADVOCACY

We'll help you work on your resume, interview etiquette, and completing online applications to get you back out into the work force. We also can help referring you to any of our internal services you'd need such as housing/eviction prevention, energy assistance, food pantry, parenting classes, & more.

PARENTING INSIDE OUT

Teaches parenting skills in an 8-week community program as well as a 6-week program held at the Harford County Detention Center, to help build a stronger connection with your child & help your children succeed.
